You can download Peony Photo Converter Serial Key 5.0.2 or higher from the link below.Q: How to get the "related" information of a nested object (without recursion) I have a nested object in my JavaScript object. var a = {a: {b: {c: "the value"}}} I need to get the value of c. This object is "nested" a bit, so the depth of a is a.a.b.c. I tried to write a function to get the value of c, but I can't think of a way to get it without recursion (no for loops). I need this to be O(1) because this object is very large and the values change frequently, so I can't just take a copy of the object and run the function on it every time. A: Use reduce() to pull a nested property out of an object. You can do this in a loop, but the O(n) lookup is expensive and will be very slow for large objects. var result = a.a.b.c; function reduce(object, f) { var keys = Object.keys(object); for (var i = 0; i Trademark Name Disposable Products, Reusable Products Office Furniture Cleaner This product is a high strength green cleaner designed for cleaning office furniture, chairs and tables in bathrooms, washrooms, kitchens, kitchens and leisure rooms.
