There is a question whether this footnote was intended to be a holding of the Supreme Court, rather than dictum. In contrast, a footnote in Leaca is to be taken seriously. After all, the language used by the four justices who concurred is identical to that used by Justice Powell in Oregon, and it is not at all apparent that either Justice Powell or Justice Rehnquist would have objected to extending Oregon to child pornography. IV To summarize, the plain language of the amendment as well as its purpose, the manner in which its amendment was drafted and the Supreme Court's explanation of how it should be interpreted, all support the conclusion that the act is to be read to extend to child pornography. V The government has argued that the risk of unfair prejudice to defendants is the same whether the child pornography is offered as evidence of a defendant's propensity to commit other crimes or is presented as evidence of his guilt of the charged offense. This argument is wrong. The danger of unfair prejudice in presenting child pornography as evidence of the defendant's propensity to commit another crime is much greater than
