

[Download](#)

Customize your system. Installing SpectraSuite. SpectraSuite can be downloaded from the Ocean Optics software download site or downloaded from the website. CD that you. download contains many additional components and possibly everything that was included in the latest version of SpectraSuite, including a new version of the database that can be downloaded for use with SpectraSuite. As mentioned, if you don't want the database to be installed, or don't have time to run it, you can simply right-click on the SpectraSuite menu and select Uninstall. Launch SpectraSuite and go to the Database tab.
