AIV Wallpaper Changer X64

-The program supports hundreds of wallpapers. -Wallpapers can be added in the program from Internet.
-A single wallpaper can be set as the desktop wallpaper. -Wallpapers can be changed at specified time.
-Wallpapers can be changed at desired time. -Wallpapers can be changed at specified intervals.
-Wallpapers can be changed at a specified time. -Slideshow support. -Deskbar wallpaper setting.
-Wallpaper list setting. -Thumbnail support Program features Main features of Wallpaper Changer include: 1. Wallpaper Changer is a Windows program that lets you change your desktop wallpaper at specified intervals and at a specified time. The program also supports customizable wallpaper settings and easy wallpaper updating. 2. It also lets you take advantage of the desktop's wallpaper settings (display, position, size, and so on) and allows you to make your wallpaper display according to your requirements. 3. It offers many wallpaper resources that you can add to the program's list. You can use the internet to access many wallpaper resources, or you can add your own favorite wallpapers to the list. 4. You can even configure a unique wallpaper for each desktop icon. You can add this feature by selecting Wallpaper folder on the desktop settings. 5. Wallpaper Changer can keep your desktop wallpaper constantly fresh and new. It supports slideshow, too. 6. You can set a time interval to remind you to change the desktop wallpaper. You can also set the program to change the wallpaper at a specified time. 7. Wallpaper Changer can change wallpaper in thumbnail mode. You can choose whether to display thumbnails or a list of your wallpaper resources. 8. As a portable application, Wallpaper Changer does not use any disk space or internet connection. What is new in this release: Version 2.5.2 (07/19/2010) • Added new wallpaper *NOTE* When you add a wallpaper in program, you need to specify a folder path. If you don't specify the folder path, the wallpaper will be saved in the program's temporary folder. *EDIT* It seems that I don't have a Wallpaper Changer source files list and it can't retrieve the Wallpaper list because the program doesn't have a working file association list. To solve this problem

What's New In?
