In 2007, a working group of the British Society of Oral Medicine and Oral Biology considered the organisation of the annual British Association for Endodontology conference, and considered what the future of the two societies should be. A report to the conference, chaired by the current President and Editor of the British Association for Endodontology, concluded that there should be a new professional society to act as the natural forum for the discussion of the future of specialist endodontic care in Britain.Q: How to use solaris bridge between two solaris systems?
