Disclaimer: This website is not affiliated with MicroCenter.Q: Hide WPF window after click So far, I have a WPF form that is shown on the screen before the main window of the application, this is done with a ShowDialog dialog. Now, I want to be able to show the form by clicking on a button, but then hide the form after doing it. I have tried the following code but I was unable to hide it, after clicking on the button, it stays visible: private void addButton_Click(object sender, EventArgs e) {
